

SUPPORTED INDEPENDENT LIVING

The Developmental Disabilities Administration works in partnership with MFP to increase housing options for individuals with developmental disabilities in the State of Maryland.

The Developmental Disabilities Administration will increase the awareness of housing issues experienced by individuals with developmental disabilities within the internal structure as well as with external partners, stakeholders, and the community at large.

There is a integral link between self-determination and housing. Understanding the link between self determination and housing is critical if we are to move forward in our vision that individuals truly have control over their own lives.
